ABOUT US

OSTHUS is a leader in Scientific Informatics. Our customers are the top companies in the pharmaceutical, bioinformatics and life science industries. With sites in Europe, the US and China, we offer a modern, exciting and attractive working environment. Using state-of-the-art methods and technologies, we work on future-oriented projects in the areas of Big Data, Machine Learning and AI. Further development, innovative strength and variety are of great importance to us as well as to our customers and employees.

RESPONSIBILITIES

- Further development and administration of our system landscape based on Windows and Linux
- Supporting our project manager and developer with our projects in the infrastructure sector
- User support in the Windows and Linux environments (software and hardware installation, troubleshooting)
- Configuring the network infrastructure: switches, router, firewall
- Documenting the work that has been carried out
- Providing development systems on a VMware virtualisation platform

REQUIREMENTS

- 3 years work experience in a similar function
- You think ahead and work in an independent and responsible way
- You have a written and spoken command of the English language
- Customer satisfaction has a high priority for you
- You work in a result-oriented manner

YOUR BENEFITS

- Diverse portfolio of tailored training and professional and personal development measures offered by our in-house Academy
- The possibility to acquire a job bike
- Joint breakfast on Friday
- Attractive salary extra: ticket plus card
- Positive working culture including regular social activities
- ...and much more!
