Lab Informatics

DevOps Engineer (m/f/d)
Aachen, Germany

ABOUT US

OSTHUS is a leader in Scientific Informatics. Our customers are the top companies in the pharmaceutical, bioinformatics and life science industries. With sites in Europe, the US and Asia, we offer a modern, exciting and attractive working environment. Using state-of-the-art methods and technologies, we work on future-oriented projects in the areas of Big Data, Machine Learning and AI. Personal development, innovation and diversity are of great importance to us as well as to our customers and employees.

RESPONSIBILITIES

- Work on-site with customers to build and integrate solutions into their informatics infrastructure
- Support work with code reviews, unit/integration tests and documentation
- Handle all aspects of supporting enterprise applications (e.g. client issues, performance, data integrity, continuous integration, and development process)
- Work on international multi-time zone projects
- Implementation of automation/configuration management using either Puppet, Chef or an equivalent
- Ability to use a wide variety of open source technologies and cloud services
- Build jobs creation and maintenance

REQUIREMENTS

- Hands-on experience in how to setup and management AWS services
- Experience with Jhipster
- Extensive knowledge of Maven and Git, GitLab and GitLab CI
- Strong background in Linux/Unix administration
- Semantic versioning techniques and experiences with microservices and microservice architecture
- Experience using Docker for building software as well as deployment
- Strong knowledge of SQL and MySQL NoSQL experience is a plus
- Intimate knowledge of coding and scripting languages (Java, Python, Perl and/or Ruby)
- Continuous Deployment techniques
- Knowledge of Ansible and CloudFormation Templates desirable
- Container orchestration experience (Rancher/Kubernetes is preferred)

YOUR BENEFITS

- Diverse portfolio of tailored training and professional and personal development measures offered by our in-house Academy
- The possibility to acquire a job bike
- Joint breakfast on Friday
- Attractive salary extra: ticket plus card
- Positive working culture including regular social activities
- ...and much more!

HOW TO APPLY

E-Mail your résumé, your salary expectations and your desired starting date to career@osthus.com. Refer to "DevOps Engineer (m/f/d)" in the subject line.
