

# ACCELERATE YOUR FUTURE

**LeapAnalysis**

**Sales Development Representative (m/f/d)  
Home Office**

## ABOUT OSTHUS Group

OSTHUS Group supports teams in building a deeper understanding of how data can be used to strategically amplify enterprise value long-term. From integration management, analytics to archiving and purging, our team works with company stakeholders to transform enterprise data into high value digital asset. The Group consists of three companies at the moment: OSTHUS Services and two product companies: ZONTAL (e-Archiving and Lifecycle Management Systems) and LeapAnalysis (Federated Virtualized Semantically-driven Data Integration), both of which offer ground-breaking technology where none of its kind currently exist in industry.

## ABOUT LeapAnalysis

LeapAnalysis is disrupting the big data market by challenging the common approach to AI projects, which assumes that data must be physically migrated (ETL'd) into new data stores to be available for search and analytics. LeapAnalysis provides powerful, elegant solutions through a simplified approach, leaving the data where it is. This federated approach connects only metadata together via API connectors that use both powerful Semantics and Machine Learning. In doing so, LeapAnalysis provides faster insights into customers' data, reducing time to value from years to weeks.

---
